WORK EXPERIENCE

Full Stack Developer

Freelancer at Freelancer , Fiverr , Magnify Brand

2019 - 2024

- Proficient in WordPress website development, creating responsive designs, customizing themes, and optimizing websites for performance.
- Skilled in graphic design using tools like Adobe Photoshop and Illustrator, creating logos, banners, and visual assets.
- Strong collaboration abilities, adept at working with diverse clients and meeting project requirements.
- Created visually appealing and professional graphic designs for logos, banners, and other marketing materials, meeting clients' brand guidelines.

PROJECTS

Google Maps Lead Generator

Html, Css, Javascript, Json

Jan 2024 - Jan 2024

- One-Click Data Collection: Gather business names, addresses, phone numbers, and websites from Google Maps with ease.
- Efficient Lead Generation: Ideal for marketers, sales teams, and business developers.
- Time-Saving: Streamline outreach and save time by automating data extraction.

Placement Portal For Government - SIH 2022

React Js , CSS, Javascript , PHP , SQL

May 2022 - Jul 2022

- The Placement Portal is a centralized platform that provides comprehensive information about government internships, scholarships, vacancies, hiring processes, and placement opportunities. It aims to streamline the access to these resources for students and job seekers across India.
- The portal is designed with a user-friendly interface to ensure easy navigation and accessibility for users.

Kontest

HTML, CSS, Javascript, PHP , SQL

Jan 2022 - Mar 2022

- The Kontest project has a website specifically designed for students who are interested in participating in online coding contests. The website is easy to navigate and provides a seamless experience for users.
- Kontest incorporates a reminder feature that helps students stay organized and prepared for upcoming coding contests.
- Kontest covers a wide range of coding platforms, including popular ones like Codechef, Hackerearth, Leetcode, and more. It provides notifications for contests hosted on these platforms, ensuring that users have access to a diverse range of coding opportunities.
